PUB-62 rev. c.2

LAWRENCE BERKELEY LABORATORY / University of California

Prepared for the U.S. Department of Energy under Contract W-7405-ENG-48

DISCLAIMER

This document was prepared as an account of work sponsored by the United States Government. While this document is believed to contain correct information, neither the United States Government nor any agency thereof, nor the Regents of the University of California, nor any of their employees, makes any warranty, express or implied, or assumes any legal responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by its trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof, or the Regents of the University of California. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof or the Regents of the University of California.

Library Bldg. 50B Rm. 4206
Lawrence Berkeley Laboratory
Berkeley, CA 94720

January 1981

Foreword

This document is a revised list of the journals in the Lawrence Berkeley Laboratory Libraries. Complete volume and year holdings are indicated for the four Libraries operated by the Library Department:

Bldg. 50 Library	Bldg. 50 Rm. 134, ext. 5621
Bldg. 90 Library	Bldg. B90P, ext. 5091
Donner Library	Bldg. 1 Rm. 201, ext. 6201
MMRD Library	Bldg. 62 Rm. 345, ext. 5971

Some volumes of some titles are on microfilm in the Bldg. 50, Donner, and Bldg. 90 Libraries. For shelf location of microfilm files ask the Circulation or Reference Librarians. Incomplete volumes have not been indicated when only a few issues are lacking.

Filing of the entries is word by word. Initials and initialisms are filed before words. Acronyms are filed as words.

Some journal titles are not received by the above four Libraries, but are sent on a long loan basis to specific individuals, groups or departments at the Laboratory. These are indicated by name or simply as long loan subscriptions. If the name of the long loan recipient is not indicated, it will be necessary to telephone the serials receiving desk in the Bldg. 50 Library, extension 4623, to learn the receiver's name and location.

Certain groups and departments, indicated by name, maintain substantial files of journals and may be contacted directly to determine the extent and availability of their files of specific journals. Included are:

Bldg. 88 Nuclear Science Division (Bldg. 88 Collection)	Bldg. 88, ext. 5088
Dept. of Instrument Science & Engineering (DISE Collection)	Bldg. 29 Rm. 100, ext. 5115
Laboratory of Chemical Biodynamics (LCB Collection)	Bldg. 3 Rm. 220, ext. 6131
Magnetic Fusion Energy (MFE Collection)	Bldg. 5 Rm. 121, ext. 5011

Questions regarding journals not included in this list should be directed to Jose Olivares at the Bldg. 50 Library, extension 5623. At intervals, this list will be updated to reflect titles which have ceased or have been dropped as well as titles which have been added.

Gloria Haire
Head, Library Department
