LBL Is a Safe Place

At LBL, safety is a top priority. We do all we can to make sure that your visit will be safe.

If you are among those who receive a safety orientation in the Reception Center, please give it your full attention. Your time will be well spent.

If you have a tour guide or escort, please cooperate fully with that person and abide by all instructions. He/she is responsible for your safety.

You will receive a pamphlet that contains comprehensive guidelines for safety at LBL. Here are a few of the most important.

Emergency

For help in an emergency at LBL, call 7911.

Driving at LBL

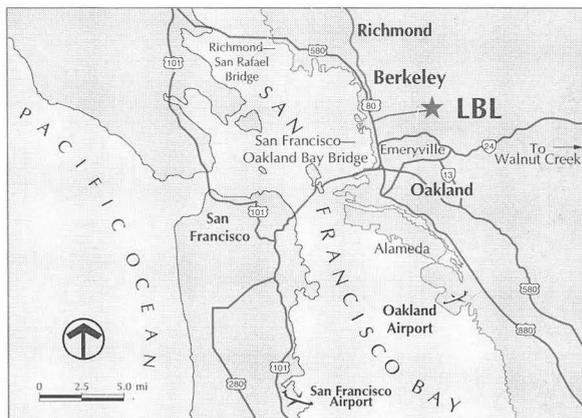

LBL has steep, narrow, winding roads and many pedestrians, bicycles, and slow-moving vehicles. **Please drive carefully.**

What to Do in an Earthquake

If indoors, stay there. Brace yourself in a doorway or take shelter under a desk for protection against falling objects.

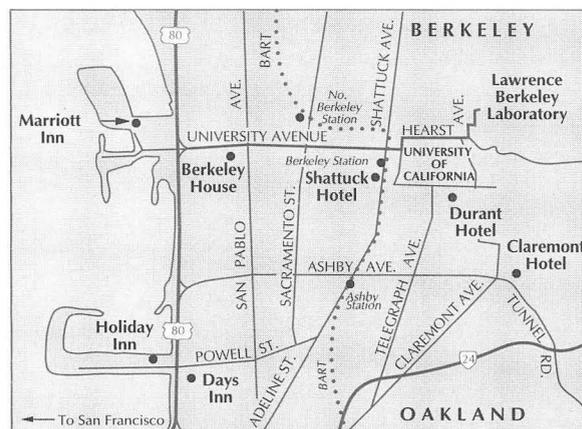

If outdoors, stay clear of falling or moving objects, and get away from windows.

Afterwards, go outside, taking your coat, briefcase, and other personal belongings with you. In the event of building evacuation due to an earthquake or for any other reason, follow the instructions of your host and watch what LBL personnel are doing.

LBL to San Francisco airport: 25 miles
Driving time: 45-60 minutes

LBL to Oakland airport : 16.5 miles
Driving time: 35 minutes

At Your Service: The LBL Reception Center

When you come to Lawrence Berkeley Laboratory (LBL), the Reception Center will probably be your first stop. Here our staff greets visitors, job applicants, and tour groups. No matter what your mission at LBL, we are dedicated to serving you in a friendly, efficient manner.

The Reception Center is open from 8:00 a.m. to 5:00 p.m. on weekdays. We provide all the services you will need to get started at LBL:

- Check-in for casual visitors such as meeting participants.
- Check-in for participating visitors—those who will engage in standard activities at LBL such as scientific research.
- A help desk where we will answer your questions before, during, or after your visit.
- A place to meet your tour guide or escort.
- Safety orientation for those who will work on site.
- Current job listings and application forms for job applicants.

With a few exceptions, everyone visiting LBL should stop first at the Reception Center. You may bypass the Center if you have already checked in and have ongoing business at LBL.

Where We Are

The Reception Center is in Building 65—only a few steps away from the main LBL shuttle-bus stop. *Limited* visitor parking is available nearby.

If You Plan to Drive to LBL . . .

. . . be aware that parking is extremely limited during normal working hours, and it is very difficult to find a place to park on-site. Please reconsider and, if possible, try one of these alternatives:

BART (Bay Area Rapid Transit)

BART is a subway/train system that serves many cities around the San Francisco Bay. The Berkeley station is downtown near the corner of Center Street and Shattuck Avenue. From there, you can take a free shuttle bus directly to LBL. (See "LBL Shuttle Service," below.)

It is easy to make a connection between BART and the Oakland International Airport. A special bus—the Oakland-AirBART shuttle—runs between the two locations approximately every 10 minutes.

For more information, call BART at (510) 464-7133 or pick up the brochure *All About BART*, available at any BART station.

LBL Shuttle Service

On weekdays, free LBL shuttle buses, are available to visitors and employees alike.

The principal off-site shuttle runs every 10 minutes from 6:30 a.m. to 5:50 p.m. Starting from the main LBL shuttle-bus stop, it travels along the perimeter of the University of California campus to the Berkeley BART station and back to LBL, stopping near the Durant and Shattuck Hotels. Another off-site shuttle provides express service to and from the Rockridge BART station at selected commute hours.

On-site shuttles loop continuously around the LBL grounds, providing convenient access to all buildings.

Airport Shuttle Service

Several commercial shuttle companies offer transportation to and from the Oakland and San Francisco International Airports.

Taxi

A taxi ride for 1–5 passengers direct to LBL or to a nearby hotel costs \$50–75 from San Francisco International Airport and about \$30–40 from Oakland International Airport. (If LBL is paying for your travel expenses, please check with your LBL host about the policy for reimbursing taxi fare.)

A shuttle picks up passengers at LBL's main shuttle-bus stop. The Reception Center is on the left.
