Fast DR: Controlling Small Loads over the Internet

By: Sila Kiliccote, Steven Lanzisera, Anna Liao, Oren Schetrit and Mary Ann Piette

Lawrence Berkeley National Laboratory

August 2014

Presented at ACEEE Summer Study on Energy Efficiency Buildings

This work was sponsored by ARPA-E through the Highly Dispatchable and Distributed Demand Response for the Integration of Distributed Generation project and in part by the Demand Response Research Center, which is funded by the California Energy Commission (Energy Commission), Public Interest Energy Research (PIER) Program, under Work for Others Contract No. 500-03-026 and by the U.S. Department of Energy under Contract No. DE-AC02-05CH11231. Authors would like to thank the City of San Jose and the owners of the residences for participating in the field tests.
